

TRU-SPRINT™ Pacer Rapid Roll Door

METALBILT DOORS

TRU-SPRINT™ PACER Rapid Roll Door is a high quality, cost effective solution for environmental control in demanding situations.

This door has a wide range of applications, such as the food industry, warehouses, and workshops, and if the power goes out, it has an emergency hand chain as standard. Made in New Zealand by the Metalbilt manufacturing team, the lead time from order to installation is quicker than any other imported rapid door on the market. Quick and reliable, the TRU-SPRINT™ PACER door will create a more productive working environment while helping you save money on cooling and heating.
