

Aluminium Roller Shutters

METALBILT SHUTTERS

Attractive aluminium shutters in clear vision or solid aluminium.

Metalbilt's Aluminium Shutters come in the choice of solid aluminium or clear vision shutters depending on your needs. For slightly larger openings, you can also choose Metalbilt's Series 3 Aluminium Shutters.

OVERVIEW

Quality shutters in an attractive design, Metalbilt's choice of three aluminium shutters will ensure you get the right look for your needs.

APPLICATIONS

Aluminium shutters are ideal for projects where a high level of strength, visibility and finish is required including:

- Bar tops
- Counter tops
- Shopfronts
- Pedestrian openings
- Arcades

SPECIFICATIONS

- Constructed from individual extruded aluminium slats.
- Acrylic panels can be omitted if ventilation is required.
- Slats can be replaced individually if damaged.
- Low side room option for tight installations.
- Fixed and removable mullion options available.
- Flush mounted locking with various keying options available.
- Operate manually by spring balance or with motorised system (incorporating automatically engaging hand chain for power failures).

FINISH

Clear anodised or powder-coated

SIZE

Solid or clear vision aluminium size:

- Maximum width – 5.25 metres
- Maximum height – 4.5 metres

Series 3 aluminium size:

- Maximum width – 8 metres
- Maximum height – 6 metres
- Maximum opening – 45 m²
