

# TRU-SEAL™ TS300 Compact Inflatable Seal

**METALBILT DOCKS**

**The TRU-SEAL™ Compact Inflatable Seal is ideal for loading environments where space is tight, providing a slimline protective seal against weather and pests while reducing energy loss from temperature-controlled environments.**

The TRU-SEAL™ system is one of the most effective and reliable dock sealing processes available, providing an inflatable air bag system that suits a wide range of container sizes. Designed for tough use, the TRU-SEAL™ Compact Inflatable Seal is easy to use and keeps personnel safe.

## SPECIFICATIONS

- Compact alternative to the TS101 TRU-SEAL™ Inflatable Seal
- Single-phase 230V 10A power supply
- Heavy-duty, high-volume fan
- Black heavy-duty UV-rated air bags with 5-year warranty
- Internal retraction system for top bag
- Retractable side bags
- Requires IP55 rated ON/OFF isolator or similar [not included]

**NB:** The TS300 is suitable for TRU-DOCK™ Loading Pods only.  
Not suitable for truck docks.  
Refer to TS101 Dock Seals for truck docks.
