

TRU-SEAL TS300 Compact Inflatable Seal

METALBILT DOCKS

The TRU-SEAL Compact Inflatable Seal is ideal for loading environments where space is tight, providing a slimline protective seal against weather and pests while reducing energy loss from temperature-controlled environments.

The TRU-SEAL system is one of the most effective and reliable dock sealing processes available, providing an inflatable air bag system that suits a wide range of container sizes. Designed for tough use, the TRU-SEAL Compact Inflatable Seal is easy to use and keeps personnel safe.

SPECIFICATIONS

- Compact alternative to the TS101 TRU-SEAL Inflatable Seal
- Single-phase 230V 10A power supply
- Heavy-duty, high-volume fan
- Black heavy-duty UV-rated air bags with 5-year warranty
