

TRU-SEAL TS200 Dock Shelter

METALBILT DOCKS

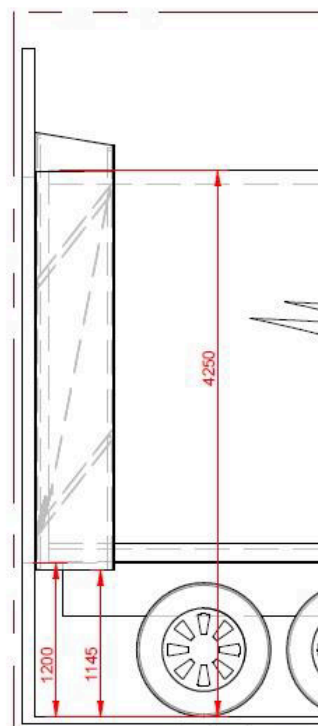

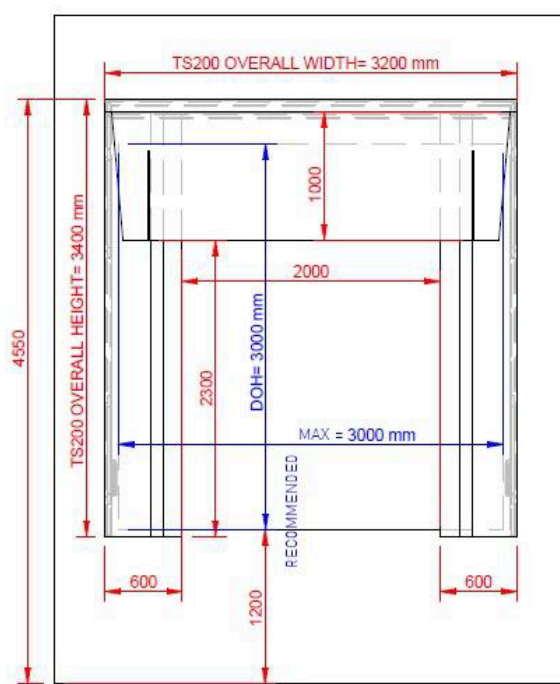

The TRU-SEAL Dock Shelter is a heavy-duty PVC cover for simple dock environmental control.

Designed to receive a large range of truck sizes, the TRU-SEAL Dock Shelter provides a flexible shield between loading dock and vehicle, giving protection from the weather. Made from tear-resistant PVC, the TRU-SEAL system is hard-wearing and highly cost-effective. A proven solution for exposed loading bays, the TRU-SEAL Dock Shelter delivers the highest degree of environmental control at a cost-saving budget.
